

Html validation checker. Validated by direct input

Index.html page

Before:

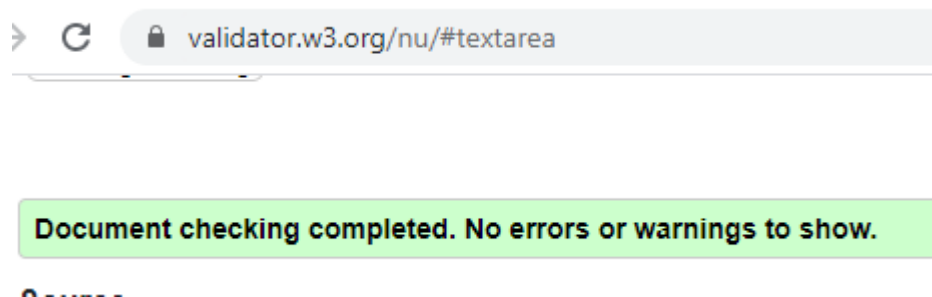

The screenshot displays a list of five HTML validation errors from a W3C validator. Each error is numbered and includes a description, the affected code snippet, and a link to the relevant part of the document. The errors are as follows:

- Error 1:** Element `<small>` not allowed as child of element `<div>` in this context. (Suppressing further errors from this subtree.)
From line 31, column 29 to line 31, column 37
Code: `Street. <small></small>`
Content model for element `div`:
If the element is a child of a `dl` element: one or more `dt` elements followed by one or more `dd` elements, optionally intermixed with `script-supporting elements`.
If the element is not a child of a `dl` element: `flow content`.
- Error 2:** Bad value `./assets/images/dog-in-cup .jpg` for attribute `src` on element ``: Illegal character in path segment: space is not allowed.
From line 66, column 21 to line 66, column 116
Code: ``
- Error 3:** Bad value `./assets/images/two dogs.jpg` for attribute `src` on element ``: Illegal character in path segment: space is not allowed.
From line 91, column 21 to line 91, column 114
Code: ``
- Error 4:** Bad value `./assets/images/Human and dog.jpg` for attribute `src` on element ``: Illegal character in path segment: space is not allowed.
From line 112, column 21 to line 112, column 116
Code: ``
- Error 5:** Stray start tag `<script>`.
From line 173, column 1 to line 175, column 28
Code: `<script src='https://code.jquery.com/jquery-3.5.1.slim.min.js' integrity='sha384-DfXdz2htPH0lsSSs5nCTpuj/zy4C4OGpamoFVy38MVBnE+IbbVYUew+OnCkArkfj' crossorigin='anonymous'></script>`

Errors corrected: documented in bugs section

After: No issues

The screenshot shows the W3C HTML validator interface. The address bar displays `validator.w3.org/nu/#textarea`. Below the address bar, a green message box states: "Document checking completed. No errors or warnings to show."

Gallery Page:

Some errors from index page check applied here also. Corrected these (documented in Bugs) and ran validation check. No Issues

Document checking completed. No errors or warnings to show.

8.   ↵
```

Services.html Page:

A screenshot of the W3C Validator interface. At the top, there's a 'Check' button. Below it, a message says: 'Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.' There's a 'Message Filtering' button. The main area displays five error messages, each with a red 'Error' label and a description. Each error includes a link to the source code and a snippet of the HTML code that caused the error. The errors are: 1. 'The element input must not appear as a descendant of the button element.' (Line 296, column 29 to 81). 2. 'Text not allowed in element iframe in this context.' (Line 311, column 25 to 26). 3. 'Text not allowed in element iframe in this context.' (Line 311, column 27 to 60). 4. 'Text not allowed in element iframe in this context.' (Line 311, column 61 to 63). 5. 'Text not allowed in element iframe in this context.' (Line 311, column 64). Each error also shows the content model for the 'iframe' element, which is 'Nothing'.

After correcting issue with text in iframes tags:

1. **Error** The element `input` must not appear as a descendant of the `button` element.
[From line 296, column 29; to line 296, column 81](#)

```
<input class="btn" type="submit" value="Send Form" />
```

After updating contact form button: No further issues
